

REBECCA PICKREL

Pickrel Photography. Fine Art

Senior portraits are about celebrating a life stage - and while it's the last year of high school, it's so much more. The senior year is about being on the cusp of something totally different - the future, and the world will never quite look the way it does right now.

As a photographer, I am about creating a set of portraits that are unique to each senior: What's the passion, the interests, the life goals? What style of images are a favorite? A little grunge and edgy? Formal and dressy? Adventurous, musical, athletic, scholarly? I want to celebrate the individuality and will work hard to tell their story through the images. Let me create a tailored session to meet the unique visions and needs of your senior and create an enjoyable and memorable experience.

Additionally, my commitment to quality ensures that each portrait is meticulously edited and presented in a way that families can cherish for generations.
